

SEMFI Auditory-Oral Training rescues children from their silent world and positions them in mainstream society.

SEMFI Speech Development and Correction helps them achieve academic and social advancement

ORAL METHOD for the DEAF

In the ORAL training of the hearing impaired, they are shown how each sound is produced thru mouth & tongue positioning, direct imitation of teacher's patterns, drawing of the speech profile, feeling the vibrating vocal or nasal sounds, transcribing visually hard words, hand analogy of mouth movements, endless speech drills and constant conversations to master the everyday language thru ONE-ON-ONE Speech Therapy classes. Mastery of all the sounds enables them to do endless speech drills [Nonsense SYLLABLE drills, WORD drills; PHASE drills; SENTENCE drills; QUESTION & ANSWER drills, poems, storytelling, news sharing, role playing, school contests & annual recitals] Also includes AUDITORY, RHYTHM Lip Reading & LANGUAGE Training.

AN ORAL SCHOOL, founded in 1988 as an alternative in the education of the deaf Recognized and Accredited by the DepEd, DSWD, PCNC, BIR Donee Institution
